About Department of Computer Science & Engineering

The department of Computer Science and Engineering was established in the year 2001. The department offer undergraduate and post graduate programme in Computer Science & Engineering. The department has a very good infrastructure and faculty to provide excellent education to meet the standards.

Today, the department caters to the needs of more than 500 UG students and 72 PG Students. It houses state of the art computing facilities with high end servers which support the LAN, provide a Linux OR Unix environment, also provides exclusive library facility to its students and boasts of well trained and experienced faculty teaching the departments various courses in the areas of Computer Networks, Computer Architecture, Database Systems, Microprocessor, Operating Systems, Analysis and Design of Algorithms and Software Engineering.

The department lays stress on the practical and application based aspects through laboratories, seminars, group discussions, viva-voce and project work, keeping pace with the growth in Computer Science & Engineering technology.

The Students are given scope to conduct experiments on innovative ideas. A sound theoretical and practical work prepares the students in wider field of Computer Science & Engineering to take up challenging jobs in the area of:

- System Software Development
- Application Software Development
